PREMIUM ADJUSTABLE BEDS FOR A BETTER TOMORROW

— WHY A DEMONSTRATION MATTERS —

Don't buy an adjustable bed from a picture.

Experience it first.

An adjustable bed is a **feel** purchase. The position that suits you, the mattress **feel** and the way the bed supports your body are difficult to judge until you actually lie on it and use the controls.

You need to feel it.

Lie on the bed and feel the comfort and support for yourself.

You need to try it.

Try the different positions and see what feels right for you.

You need to understand what it can do for you.

See how it can improve your comfort, sleep and lifestyle.

“
The only way to know if it's right for you is to **experience it.**”

Your Place or Mine?
